

DANIEL BABILONIA

Web Developer /
Tech Expert

About Me

Experienced Web Developer & Technical Support Specialist with a strong background in creating dynamic and responsive web solutions. Proficient in HTML, CSS, JavaScript, and experienced in troubleshooting technical issues to ensure seamless user experiences. Adept at collaborating with cross-functional teams and providing top-notch customer support. Passionate about staying up-to-date with emerging web technologies to deliver innovative solutions.

Experience

Technical Support Specialist • April 2023 - Present

Kodland - Part Time

As a part-time Technical Support Specialist, I diagnosed and resolved software and hardware issues, configured systems, documented customer inquiries, and provided timely feedback. My problem-solving skills, attention to detail, and ability to work independently and as part of a team contributed to my success in this role.

Skills: Jira • Zendesk • PowerShell • Windows Console • Information Gathering •
Databases • Analytical Skills • Troubleshooting • Technical Support • Communication

Frontend Developer • December 2022 - Present

Freelance

Creating responsive projects and layout of web pages using JavaScript, HTML, CSS, React, Bootstrap, Bootswatch and Redux and implementing backend structures with Node Js and PSQl

Skills: HTLM • CSS • Figma • Render • WordPress • PHP • Gatsby • JavaScript •
React Js • Angular • Bootstrap • Bootswatch • APIs

FullStack Web Developer • December 2020 - November 2021

Lovelace Dev

I worked as a FullStack Developer at Lovelace, using React.js and Node.js. My responsibilities included creating and designing the hole info website, making sure the website was functional and easy to use. I implemented user components, responsive layouts and managed user permissions, optimizing the user experience.

Skills: HTLM • CSS • JavaScript • React Js • Bootstrap • Bootswatch • Figma • Node Js •
MongoDB • Postman • Active Directory • MySQL • PostgreSQL
